Your greatest asset as a Web Developer is your ability to find solutions to the problems you will encounter.

**You need to know how to problem solve, because:**

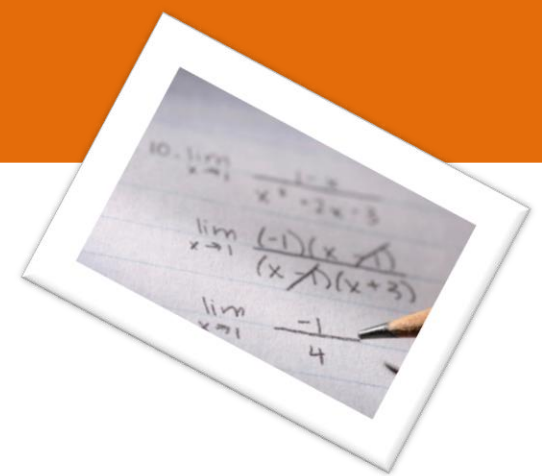

- No one knows how to do everything
- New techniques are developed everyday
- Technologies change rapidly
- Your skill set will continually grow

## 4 steps for solving a problem

- Understand the problem
- Devise a plan (*search for solutions*)
- Carry out the plan (*build it*)
- Evaluate (*and file*)
